SUMMARY OF THE REASONS FOR DECISION:

The untitled photographic material, also known as *Item 35 Sleeve containing 2 negatives and 2 photographs* is classified as:
Unrestricted.

The publication consists of two black and white photographic prints and their respective negatives. Each individual image is quite small, in the manner of such photographic material. The first photographic image and negative is a wide shot of a naked adolescent girl who has a youthful physique. Her genital area is visible and she has pubic hair. The second photographic print has two negatives and features a wide shot of a stone sculpture of a head. The dominant effect of the publication is romantic and aesthetic rather than overtly sexual.

While the publication exploits the nudity of young persons, it does not do so to an extent or degree, or in a manner, that would render its availability likely to be injurious to the public good. Consequently, no restriction is placed on the publication. The freedom of expression set out in the New Zealand Bill of Rights Act 1990 is not limited by this classification.
